PROFILE

Dynamic Full Stack Developer with expertise in WordPress plugin development, PHP, JavaScript, and cloud infrastructure management. Founder of Iter Dev LLC, providing advanced WordPress consulting services. Adept at solving complex technical challenges and collaborating in agile environments to deliver scalable, user-focused solutions. Creative problem solver blending logic and creativity from performing arts to communicate ideas effectively.

WORK EXPERIENCE

Iter Dev LLC

2024 - PRESENT

Founder & Lead Developer

- Deliver WordPress consulting, custom plugins, and theme optimizations.
- Integrate APIs and e-commerce platforms for enhanced functionality.
- Manage project lifecycles, ensuring scalability and client satisfaction.

Nzymes.com (Biopet Inc.)

2016-PRESENT

Development Operations Engineer

- Develop and maintain WordPress/WooCommerce platforms using PHP, AJAX, JavaScript, and MySQL, enhancing e-commerce functionality.
- Build and maintain custom plugins and FileMaker scripts for WooCommerce API integration and barcode systems.
- Custom-build a FileMaker script to pull and synchronize WooCommerce order data into FileMaker using the WooCommerce REST API, correlating data against shipping records and creating a custom barcode checking system to ensure accurate package shipping.
- Administer LAMP/LEMP/NGINX stacks on Ubuntu, Azure, and Kinsta cloud infrastructure.
- Set up Amazon Seller account, driving ~\$50K/month through integrations.
- Implemented Google Analytics, Google Tag Manager, and Google Ads; earned Google Search Ads certification (2025).

Previous IT Experience

1998 - August 2016

- Provided technical consulting, systems administration, and infrastructure migrations.
- Supported business applications and network troubleshooting for reliability.
